Managed by Terebinth Capital

Terebinth Capital is a specialist fixed and enhanced income asset manager with a number of fixed income mandates. The investment team is composed of individuals with specialist knowledge of fixed income instruments. The company is 100% manager-owned with a long-term focus.

Terebinth Capital has a top down macro philosophy coupled with a bottom up quantitative process that leads to low correlation with the broader market. The in-house quantitative skills ensure that within each asset class the best allocation strategy is implemented.

Amplify Investment Partners (Pty) Ltd is an authorised Financial Services Provider (FSP 712).

Sanlam Collective Investments (RF) (Pty) Ltd is a registered and approved manager in terms of the Collective Investment Schemes Control Act. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and the value of investments/units/unit trusts may go down as well as up. A schedule of fees and maximum commissions is available from the manager on request. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. The manager does not provide any guarantee with respect to either the capital or the return of a portfolio. The manager has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. Income funds derive their income primarily from interest-bearing instruments. The yield is current and is calculated on a daily basis. If the fund holds assets in foreign countries it could be exposed to the following risks regarding potential constraints on liquidity and the repatriation of funds: macro-economic, political, foreign exchange. The manager retains full legal responsibility for the third party named portfolio. Hedge Funds are collective investment schemes with a strategy that allows for leveraging and short selling strategies. Hedge Funds may invest in illiquid instruments which may result in longer periods for investors to redeem units in a fund. Hedge Fund strategies can result in losses greater than the market value of the fund. However, investor's losses are limited to the capital invested or contractual commitments. March 2020.

Terebinth Capital (Pty) Ltd, FSP 47909, an authorised Financial Services Provider under the Financial Advisory and Intermediary Services Act, 2002.
